Relevant Experience

Front-End • **Anjun Express** Apr 2023 – Oct 2023

- Spearheaded the development and maintenance of internal systems to enhance transport and logistics operations within the cross-border market, adhering to best development practices.
- Conducted ongoing system maintenance, promptly identifying and resolving issues while implementing performance enhancements.
- Optimized critical resources, resulting in a remarkable 20% increase in page loading speed.
- Established a comprehensive Design System, ensuring accessibility and reusability of components across various projects, subsequently published in NPM for wider utilization.
- Utilized a tech stack comprising *React*, *Next.js*, *TypeScript*, *Tailwind CSS*, *styled-components*, *GraphQL*, *Cypress*, and *GitHub Actions* for seamless integration and deployment.
- Collaborated with a diverse team to ensure seamless integration of frontend and backend technologies.

Full-Stack • **Divina Terra Atibaia** Jan 2023 – Mar 2023

- Developed a captivating landing page for a health food market, focusing on user engagement and aesthetic appeal using *Astro* and *Tailwind CSS*.
- Created an admin dashboard using *React*, *Next.js*, *TypeScript*, *Tailwind CSS*, *tRPC* and *recharts*.

Front-End • **CACV** Apr 2020 – June 2020

- Collaborated in the development of a website aimed at empowering young individuals to pursue promising careers, fostering a sense of community and opportunity.
- Utilized a diverse stack including *HTML*, *CSS*, *JavaScript*, *jQuery*, and *Bootstrap* to deliver a user-friendly and informative web platform.
